CONTACT CLEANER 2000® VC Precision Cleaner

I. Product Description

Contact Cleaner 2000® VC is an aggressive advanced COzol® technology alternative precision cleaner designed to remove contaminants from electronic equipment. It provides an effective alternative to HCFC 141b-based cleaners when sensitive plastics are not a concern. Contact Cleaner 2000® VC evaporates quickly, leaves no residue, is non-flammable and contains no Class I or Class II ozone depleting chemicals. Contact Cleaner 2000® VC is VOC compliant in all 50 states.

II. Applications

Recommended for the effective cleaning of light oils, dirt, dust, fingerprints, flux or polar soils from contacts, metal switches, motors, relays, generators, edge connectors, buss bars, circuit breakers, scales and sensors. Not recommended for use on Noryl® or polycarbonate type plastics.

III. Features & Benefits

- **New Advanced COzol® Technology.**
- **No Class I or Class II Ozone Depleting Chemicals.** Offers superior performance while complying with the EPA regulations on the use of CFCs and HCFC's. **Does not contain HCFC – 141b.**
- **VOC Compliant** in all 50 states.
- **Leaves No Residue.** Minimizes downtime associated with “clean-in-place” cleaning methods.
- **High Purity Formula.** Chemically stable and non-conductive.
- **No Flash Point.** Significantly reduces the risk of fire caused by incidental contact with live electronic equipment, increasing user safety.
- **Fast Evaporation.** No rinsing or wiping required.
