Features and Benefits:

FEATURE	BENEFIT
Single polarized lens technology	Reduces eye stress and fatigue caused by excessive glare from any surface that commonly reflects bright sunlight
Two polarized lens color options - gray or brown	Brown lens color is effective for filtering scattered blue light to improve depth perception and contrast. Gray lens color is ideal for reducing reflective glare, eye strain and fatigue. Allows viewing of environment in richer colors.
Soft touch temples	Ultimate comfort in extended use situations
Single lens wrap around protection with a base curve of 8	Greater area of protection around the eye
Lightweight with a sporty style	Ensures wearer compliance
Every glass includes a free neck cord	Helps with storage when glasses are not in use
Lens provides 99.9% UV protection	Blocks harmful light
Exceeds ANSI Z87.1+ standards	Guaranteed safety
Custom Imprinting on temples and lens available	Branding potential - Contact Customer Service for details (800)428-8185
