

Accessories

Super Tough Lexan® Plastic Regulator Hard-Hat™ to protect your gauges from damage.

H195

H753 (PAIR)

Flashback Arrestors

(Sold as pairs only)

H698 (PAIR)

Check Valves

Safety Components

Regulator safety devices such as Flashback Arrestors and Reverse Flow Check Valves are also available for use with to Series 30 Regulators.

Pressure Regulators & Flowgauges

Station Regulators

Two Stage Regulators

Dual Flowmeter Regulator

Flowmeter Regulators

Purge/Leak Test Regulator

Complete Line

Smith offers a complete line of single and two stage regulators, flowmeter regulators, and flowgauges, capable of supporting the most demanding welding, cutting, or heating operations.

- **High Capacity**
- **Rugged**
- **Accurate**
- **Made in the USA**

Premium Products Built for a Lifetime

EXTREME DEPENDABILITY • PERFORMANCE • VALUE • CAPACITY

Dependability

Seat contamination is the #1 cause of regulator failures. That's why Series 30 Regulators are built with Sure-Seat™ technology including dual filters to protect the high pressure seat. The result is increased reliability, reduced downtime and years of dependable service.

CONVENTIONAL

Particles collecting on seating surface of conventional type seats

Sure-Seat™

SMITH

Nickel plated bronze filter protects seat

- **Tough laminated Neoprene™ diaphragm holds up to the toughest environments**
- **Shatter resistant polycarbonate gauge lenses**
- **Auto-reset safety relief valve does not require replacement if over pressurized**
- **Dual filters for maximum seat protection**

MADE IN THE USA

Performance

Accurate

What you see is what you get. Gauges and flowmeters provide consistent accurate readings for optimal performance.

High Flow Capacity

- Over 50 cfh flow gauge capacity
- Over 5000 cfh for oxygen regulators

Three Year Freeze-Free Guarantee

Series 30 Flowgauges are highly resistant to Freeze-up with carbon dioxide gas flows as high as 35 cfh (intermittent or continuous flow).

Value

Gas Savings

Superior engineered design provides consistent outlet pressure and flows from a full to an empty cylinder reducing wasted gases and saving money.

Premium Quality

Series 30 regulators are covered by a 3 year limited warranty. New high quality design features, plus corrosive resistant components provide extreme accuracy, rugged dependability and long service life.

Smith wants your business, that's why we are offering the longest lasting Series 30 line of premium regulators, flowmeters and flowgauges at unbeatable values. Tell your welding distributor you want Smith Series 30 Regulators and accessories.
